[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO NOV. 6.

EASTERN STATES.

South Carolina Bonds

NEW YORK, Nov 5.—The *World* says the most extraordinary rumors are in circulation concerning the issue of bonds for the State of South Carolina. Suspicion has been such over the issue as to absolutely endanger the solvency of the State. It is stated that a bank note company in this city printed twenty million dollars of bonds which passed into the possession of Mr. Kempton, State financial agent. Several members for the State are in this city. Other prominent South Carolinians are here watching proceedings. Gov. Scott is said to have admitted the printing of the bonds, but does not state the object of their issue. It is also alleged that many of the State officials are implicated in the misappropriation of the money of the State. It is believed that this fraudulent issue of $20 000 000 has been negotiated and the money misapplied.

New York News.

NEW YORK, Nov 5.—Chas O'Conor says that from three to six millions will be received from Tweed, whose aiders and abettors are to be proceeded against.

Tweed's election is conceded by a large majority. The *Herald* says the controlling political elements in Tweed's district are, according to Democratic authority, outlaws, vagrants, bummers, etc. They would probably go for him if he were under conviction awaiting sentence as a robber of the public treasury.

Chicago Matters

CHICAGO, Nov. 4.—The interest felt in the city election on Tuesday is all absorbing. The Mayor has issued a proclamation recommending the suspension of all business on Tuesday to allow all an opportunity to vote. Damaging charges are made against Holden, a Summer candidate for Mayor. It appears that Holden, as President of the City Council, received $15,000 in cash sent for the relief of the sufferers by the fire and also several car loads of supplies. The Mayor turned over the relief business to the old Chicago Aid Society, an organization composed of the best citizens, regularly incorporated. The Chairman of the Executive Committee of this Association, Wirt Dexter, applied to Holden for funds in his hands. Holden refused and still refuses to discharge.

WASHINGTON CITY

Official Business.

WASHINGTON, Nov 5.—The Secretary of the Interior expresses no opinion as to the guilt or innocence of Judge Wright in regard to the Indian frauds.

Instructions from the President to the authorities of Utah were that they should be firm, yet judiciously enforce the laws, and make no compromise with criminals. The latest reports from the officials represent all danger of a collision passed.

It is said that the President has no intention of suspending the habeas corpus in any Southern State other than South Carolina, unless the condition of things shall render it necessary.

The receipts of Internal Revenue from July 1st to November 4 were $48,000,000. Expenses of Revenue officers for the past quarter, are reduced 30 per cent from the same period last year. It is understood that the plan of consolidation of the Internal Revenue Districts has been abandoned. It is not thought that the Commissioner of Internal Revenue will adopt in his report any of the recommendations in reference to whisky and tobacco being urged upon him by interested parties.

BY ATLANTIC CABLE

Meeting of British Parliament Postponed

LONDON, Nov 4.—A supplement to the official *Gazette* contains a proclamation from the Queen postponing the meeting of Parliament to the 27th December next.

Fate of French Communists

PARIS, Nov 5.—Victor Hugo has made a second visit to Thiers to procure the pardon of Henri Rochefort. The President received him kindly but declined to interfere.

The Communist Quesnel has been convicted of firing buildings in Paris and been sentenced to death.

Help from Belgium

BRUSSELS, Nov 5.—The Belgian Government forwarded 20,000 francs for the relief of Belgian settlers in Wisconsin. Government has also opened a subscription for voluntary contributions.

German Affairs.

BERLIN, Nov 4.—The Reichstag to day passed the war fund bill. During debate prior to its passage Bismarck urged the necessity in the present aspect of European affairs of strengthening the country by thus empowering the Emperor to act promptly and freely under any adverse or threatening circumstances which may arise. The passage of the bill which was recommended in the Emperor's address, would leave His Majesty unshackled and would virtually place the Prussians in position to act either upon the offensive or defensive. No complications are apparent.

CALIFORNIA.

From San Francisco

SAN FRANCISCO, Nov 5.—The Pacific Wood Preserving Works on Berry street, South Beach, burned yesterday morning. Loss, $20,000. Insured for $1,000 in the People's Insurance Co., which has suspended. All interest was centered yesterday in the news brought by the steamship *Moses Taylor*, which accounts for the fire not being reported yesterday.

Eleven persons perished on the brig *Shellikoff*.

The steamer *Saranac* sails this morning for Magdalena Bay to bring away the last of the Lower California victims.

The birthday of the Mikado of Japan was celebrated by the Japan students of this city yesterday.

Timothy Driscoll died at Oakland Saturday, while being taken in an express wagon to the City Hall.

You Mow, a member of Yung Wo & Co., died in convulsions and is supposed to have been poisoned.

A stranger who jumped in the bay while laboring under delirium tremens, Saturday died at the County Hospital yesterday.

The wool purchased in Australia for California and Eastern markets, foots up 19 000 bales. The American buyers who went out, took letters of credit for two millions and a half.

The Sydney agent of the American steamer line announce large engagements of freight for the next steamer, of which the bulk goes overland.

POLITICAL NOTES

The leading Georgia papers, the Augusta *Constitutionalist* and the Atlanta *Constitution*, advocate the course suggested by Wade Hampton, that the South send no delegates to the next National Democratic Convention.

Says the New York *Herald*, In view of the many misfortunes which afflict the Democracy it would really seem to be a serious question whether there is any necessity for the Democrats holding a National Convention at all next year.

No Democrat has ever been murdered for his political opinions in this country. North or South. But persons of opposing parties have been murdered in large numbers. Not Democrats often talk of the "friendliness" of their adversaries.

The dispatches say that Tweed, the great public robber, who has been arrested for his crimes and is now out on bail, will be re elected. That such a result is deemed possible is a sad commentary on the degradation of the Democratic party.

The Register of the Treasury states the tonnage of the country for the year ending June 30, 1871, as follows. In 1870 there were 28,998 rigged vessels, 4 246,507 tons, in 1871 there were 29,170 vessels, with 4,268 532 tons. It thus appears that there has been an increase during the year ending June 30, 1871, of 172 vessels and 23,053 tons. The steam tonnage of the country has increased 5,309 tons. There has also been a considerable increase in the barge and canal boat tonnage.

OREGON

A nugget of pure gold worth $100 was picked up a few days ago in French Gulch, Baker county.

Many suits are pending in the Circuit Court for Lane county to obtain rights of way for the railroad.

J. M. Breeding, one and a half miles south of Eugene, has sold his farm of 400 acres to a California immigrant for $5,182.

Ten persons direct from Tennessee have arrived in Douglas county. They came from San Francisco to the Umpqua by steamer.

As fellow got into John Rast's brewery at Corvallis the other night and emptied all his kegs, spilling 250 gallons of "der pully lager beer."

The Roseburg *Plaindealer* says that parties have been visiting Coos Bay to ascertain the practicability of constructing a line of telegraph between Roseburg and Empire City.

From the Dalles *Republican*: We are informed that John Moore, a quarter breed Indian, of low reputation, married the youngest daughter but one of Gen Palmer. The young lady is 17 or 18 years of age.

The *Farmer* says that Dr Carpenter and S R Hammer, of Salem, have purchased of Butterfield & Son the fine flock of Angora goats exhibited at the late State Fair. They have one pure blood buck, and fifteen ewes fifteen sixteenths grade. They will be kept on Dr Carpenter's farm, a few miles from Salem, with the design of breeding to such an extent as to furnish those who wish to obtain this kind of stock.

THE TERRITORIES

Forty cars are being built for the coal company at Seattle.

The land disposed of at the Olympia land office during October amounted to 16 911 acres.

The people of Stevens county, W T, have a petition to the Legislature asking for a division of the county.

Dissensions among the Washington Territory Republicans are growing more and more bitter. We guess they will never be satisfied till they have given up the Territory to the Democrats.

The Walla Walla *Union* says that one Jack Moran cut a man's mouth from ear to ear at Clearwater Bridge the other day, and also cut his ears off. For this Moran was seized by the people and hung.

Colorado has the credit of being the first to introduce a complete narrow gauge railroad to the notice of the country. The Denver people are jubilant over the successful working of a road of this description, 76 miles long, connecting that city with Colorado Springs. The success of this experiment will give new vitality to the numberless projects for three foot railroads now being agitated in different parts of the country.

A correspondent of the St. Louis *Republican* makes a bad report of the results of political rights for women in Wyoming. He says: The women of Fort Laramie feel that they are equal if not superior to the men. It is not an uncommon thing to see the officers' wives go to the billiard room of the sutler at that post and play till one or two o'clock in the morning. When they break up you can hear (sung by liquorized female voices) snatches of songs, such as "Shoo Fly," "Captain Jinks," "John Brown's Knapsack," and the world renowned song of summers, "We won't go home till morning."

LATEST NEWS CONDENSATIONS.

Thurlow Weed has been pensioned under the new act of Congress for services rendered in the war of 1812.

The Examiner at the Patent Office has decided that portraits of Confederate Generals cannot be patented as trade marks for boots, and shoes or other wares.

The extraordinary sum of $375,000 was recently obtained in two weeks from the Caledonian gold reef in New Zealand. Considerably more than a ton of gold was extracted from five hundred tons of quartz.

The amount of freight shipped from California to the East during the month of September was larger than in any preceding month, amounting in all to 8 907 607 pounds, or equal to 4,454 tons, or 445 car loads of 10 tons each.

Chicago was the center of the "patent inside" newspaper publishing business. As a great many of the Western country papers depended for their editing and printing on this expedient, one of the results of the fire has been a vast rural constituency without papers.

There are indications that the Chicago insurance companies will do much better than was generally expected. The Republic, which at first resolved to pay 25 per cent and disband, will, it is understood, reconsider that action and pay in full. The Company will pay 25 per cent without waiting for an adjustment, and after the adjustment will pay the remainder. It is also asserted that the Boatmen's Company will pay in full.

Intense interest is manifested in New York in regard to the election. The final result of the New York complications depend upon the next Legislature to be elected to-morrow (Tuesday). Should it be carried in the Tammany interest, there is no doubt but that all the frauds and thieveries of the ring will virtually be ratified by Legislative enactments, and the perpetrators shielded against danger of being called to account.

A dispatch from Chicago, October 31st, says: The Lake Park, fronting Michigan avenue for a full mile, now presents a very cheering aspect. It is lined with comfortable, roomy, two story buildings, in most cases neatly painted, without, and bearing the names of many of our great wholesale firms, and windows are piled high with goods, which are being rapidly sold to old and still confident customers. Dealers from outside districts can now have their orders filled promptly and well.

CURRENT NOTES

A few days ago at the Infirmary of Steubenville, Ohio, two boys, Philip Sheridan and Andrew Stewart took a poor little lame boy five years old, off into a secluded place, dug a grave, and buried the poor little fellow alive. A negro boy who heard his cries, gave information a short time after, but when the place was reached the boy was dead.

The "railways of the future" seem likely to be built largely on the narrow gauge. It is a remarkable fact that at this moment there are no fewer than fifty locomotives in course of construction in British machine shops intended for narrow gauge lines. Those made in Peru, Mexico, Brazil, Canada and Nova Scotia on the continent, and in Russia, Australia and Sweden elsewhere.

There is a limit to even French ingenuity in loan raising. It is possible that that boundary has been reached, or nearly so. Great distress prevails in Paris, on account of the ceaseless drain which the indemnity payments are making upon the finances of the country. Already, the Bank of France, which has linked its fortunes inseparably with those of the Government, has commenced the issue of paper currency in small notes. This is the beginning of a series of desperate shifts, and will remind alarmists of the unwholesome assignats of the old Republic. Meantime, $700,000 000 of the war indemnity remains unpaid.

The *World* relates a report regarding the plundering of South Carolina by State officers. It says later information shows the charges not only to be correct, but even as tempered in the interest of truth and justice towards all as to fall short of the real condition of affairs. The *World* also alleges an immense issue of fraudulent bonds by State officers of North Carolina, and promises in a few days the official figures regarding both frauds.

Alice Mallory, of this city, was taken from the Fifth avenue stage in a dying condition, on Saturday, and died shortly after. A postmortem showed poison. She is believed to have been drugged by villains who answered an advertisement for a position as governess.

The *Times* is authorized to say that Governor Hoffman recommends the next Legislature to abolish imprisonment for debt, and also recommends a modification of the law regarding the the undue detention of witnesses.

Crimes and Casualties

WILMINGTON, Nov 6—Chas E Woolsey, a school teacher in "Christiana" valley, was shot and killed yesterday, by Stephen H. Costner, Justice of the Peace. Costner surrendered to the authorities.

BROOKSVILLE, Ind., Nov 6—The Stewart Paper Company's Mill at this place, burnt this morning. Loss, $70,000. Insured for $25,000.

LOUISVILLE, Nov 6—At half past nine o'clock last night, the giving way of a column in the lower room in the African Baptist church, corner Fifth and York streets, created a panic among the congregation in the upper room and the whole body rushed, jammed and crushed into two narrow stairs on each side of the door, the men trampling over women and children to gain daylight. Eleven were killed outright, two of them children. A number are more or less wounded. One had a leg broken. The scene was terrible and heartrending. Mothers were screaming over their dead children and husbands in agony over wives. The column or pillar which gave way, proved to have been standing on the lower floor, between the joist, with nothing under it but inch flooring.

Another Rumor Regarding Secretary Fish

NEW YORK, Nov 6—The *Tribune* reports the resignation of Secretary Fish, and says editorially that the country has been afflicted with innumerable rumors concerning the resignation. They finally have crystalized into a statement which we have from Washington in a shape so authentic and trustworthy that we are compelled to give it credence.

The mandamus compelling Mayor Hall to appoint new inspectors of election was granted by Judge Barnard.

Gen Sheridan's Occupation of Chicago.

ST LOUIS, Nov 6—A special from Springfield, Illinois, says the defense of Gen Sheridan's military occupation of Chicago seems to rest on the plea of necessity. It is not generally known yet if it is true that the Adjutant General of the State, an old and experienced soldier, reached Chicago the day after the fire with four hundred and fifty picked men, well armed, under orders from Gov. Palmer to enforce the laws and preserve order. Under advice of Gen Sheridan and Mayor Mason he returned home with his men because no necessity existed for either. After this the regiment of which Gov Palmer complains was organized and called into service.

Later from New York

NEW YORK, Nov. 6—The water police demand ed but did not get two months pay of the Controller to day.

Many rumors are afloat in regard to anticipated trouble at the polls to morrow. It is reported that gangs of roughs came from Philadelphia for repeating purposes.

[DISPATCHES TO THE OREGONIAN.]

EASTERN DATES TO NOV. 6.

EASTERN STATES.

South Carolina Bonds.

NEW YORK, Nov. 5.—The *World* says the most extraordinary rumors are in circulation concerning the issue of bonds for the State of South Carolina. Suspicion has been cast over the issue as to absolutely endanger the solvency of the State. It is stated that a bank note company in this city printed twenty million dollars of bonds which passed into the possession of Mr. Kempton, State financial agent. Several members for the State are in this city. Other prominent South Carolinians are here watching proceedings. Gov. Scott is said to have admitted the printing of the bonds, but does not state the object of their issue. It is also alleged that many of the State officials are implicated in the misappropriation of the money of the State. It is believed that this fraudulent issue of $20,000,000 has been negotiated and the money misapplied.

New York News.

NEW YORK, Nov. 5.—Chas. O'Conor says that from three to six millions will be received from Tweed, whose aiders and abettors are to be proceeded against.

Tweed's election is conceded by a large majority. The *Herald* says the controlling political elements in Tweed's district are, according to Democratic authority, outlaws, vagrants, bummers, etc. They would probably go for him if he were under conviction awaiting sentence as a robber of the public treasury.

Chicago Matters.

CHICAGO, Nov. 4.—The interest felt in the city election on Tuesday is all absorbing. The Mayor has issued a proclamation recommending the suspension of all business on Tuesday to allow all an opportunity to vote. Damaging charges are made against Holden, a bummer candidate for Mayor. It appears that Holden as President of the City Council, received $15,000 in cash cent for the relief of the sufferers by the fire and also several car loads of supplies. The Mayor formed over the relief business to the old Chicago Aid Society, an organization composed of the best citizens, regularly incorporated. The Chairman of the Executive Committee of this Association, Wirt Dexter, applied to Holden for funds in his hands. Holden refused and still refuses to disgorge.

WASHINGTON CITY.

Official Business.

WASHINGTON, Nov. 5.—The Secretary of the Interior expresses no opinion as to the guilt or innocence of Judge Wright in regard to the Indian frauds.

Instructions from the President to the authorities of Utah were that they should be firm, yet judiciously enforce the laws, and make no compromise with criminals. The latest reports from the officials represent all danger of a collision passed.

It is said that the President has no intention of suspending the habeas corpus in any Southern State other than South Carolina, unless the condition of things shall render it necessary.

The receipts of Internal Revenue from July 1st to November 4th were $48,000,000. Expenses of Revenue officers for the past quarter, are reduced 30 per cent. from the same period last year. It is understood that the plan of consolidation of the Internal Revenue Districts has been abandoned. It is not thought that the Commissioner of Internal Revenue will adopt in his report any of the recommendations in reference to whisky and tobacco being urged upon him by interested parties.

Meeting of British Parliament Postponed.

LONDON, Nov. 4.—A supplement to the official *Gazette* contains a proclamation from the Queen postponing the meeting of Parliament to the 27th December next.

Fate of French Communists.

PARIS, Nov. 5.—Victor Hugo has made a second visit to Thiers to procure the pardon of Henri Rochefort. The President received him kindly but declined to interfere.

The Communist Quesnel has been convicted of firing buildings in Paris and been sentenced to death.

Help from Belgium.

BRUSSELS, Nov. 5.—The Belgian Government forwarded 20,000 francs for the relief of Belgian settlers in Wisconsin. Government has also opened a subscription for voluntary contributions.

German Affairs.

BERLIN, Nov. 4.—The Reichstag to-day passed the war fund bill. During debate prior to its passage Bismarck urged the necessity in the present aspect of European affairs of strengthening the country by thus empowering the Emperor to act promptly and freely under any adverse or threatening circumstances which may arise. The passage of the bill which was recommended in the Emperor's address, would leave His Majesty unshackled and would virtually place the Prussians in position to act either upon the offensive or defensive. No complications are apparent.

CALIFORNIA.

From San Francisco.

SAN FRANCISCO, Nov. 5.—The Pacific Wood Preserving Works on Berry street, South Beach, burned yesterday morning. Loss, $20,000. Insured for $1,000 in the People's Insurance Co., which has suspended. All interest was centered yesterday in the news brought by the steamship *Moses Taylor*, which accounts for the fire not being reported yesterday.

Eleven persons perished on the brig *Shelikoff*.

The steamer *Saranac* sails this morning for Magdalena Bay to bring away the last of the Lower California victims.

The birthday of the Mikado of Japan was celebrated by the Japan students of this city yesterday.

Timothy Driscoll died at Oakland Saturday, while being taken in an express wagon to the City Hall.

Yon Mow, a member of Yung Wo & Co., died in convulsions and is supposed to have been poisoned.

A stranger who jumped in the bay while laboring under delirium tremens, Saturday, died at the County Hospital yesterday.

The wool purchased in Australia for California and Eastern markets, foots up 19,000 bales. The American buyers who went out, took letters of credit for two millions and a-half.

The Sydney agent of the American steamer line announce large engagements of freight for the next steamer, of which the bulk goes overland.

POLITICAL NOTES.

The leading Georgia papers, the Augusta *Constitutionalist* and the Atlanta *Constitution*, advocate the course suggested by Wade Hampton, that the South send no delegates to the next National Democratic Convention.

Says the New York *Herald*: In view of the many misfortunes which afflict the Democracy, it would really seem to be a serious question whether there is any necessity for the Democrats holding a National Convention at all next year.

No Democrat has ever been murdered for his political opinions in this country, North or South. But persons of opposing parties have been murdered in large numbers. Yet Democrats often talk of the "clendishness" of their adversaries.

The dispatches say that Tweed, the great public robber, who has been arrested for his crimes and is now out on bail, will be re elected. That such a result is doomed possible is a sad commentary on the degredation of the Democratic party.

The Register of the Treasury states the tonnage of the country for the year ending June 30, 1871, as follows: In 1870 there were 28,998 rigged vessels, 4,246,507 tons; in 1871 there were 29,170 vessels, with 4,268,532 tons. It thus appears that there has been an increase during the year ending June 30, 1871, of 172 vessels and 23,053 tons. The steam tonnage of the country has increased 5,309 tons. There has also been a considerable increase in the barge and canal boat tonnage.

OREGON.

A nugget of pure gold worth $100 was picked up a few days ago in French Gulch, Baker county.

Many suits are pending in the Circuit Court for Lane county to obtain rights of way for the railroad.

J. M. Breeding, one and a-half miles south of Eugene, has sold his farm of 400 acres to a California immigrant for $5,182.

Ten persons direct from Tennessee have arrived in Douglas county. They came from San Francisco to the Umpqua by steamer.

A fellow got into John Rast's brewery at Corvallis the other night and emptied all his kegs, spilling 250 gallons of "dor pully lager peer."

The Roseburg *Plaindealer* says that parties have been visiting Coos Bay to ascertain the practicability of constructing a line of telegraph between Roseburg and Empire City.

From the Dallas *Republican*: We are informed that John Moore, a quarter breed Indian, of low reputation, married the youngest daughter but one of Gen. Palmer. The young lady is 17 or 18 years of age.

The *Farmer* says that Dr. Carpenter and S. R. Hammer, of Salem, have purchased of Butterfield & Son the fine flock of Angora goats exhibited at the late State Fair. They have one pure blood buck, and fifteen ewes, fifteen-sixteenths grade. They will be kept on Dr. Carpenter's farm, a few miles from Salem, with the design of breeding to such an extent as to furnish those who wish to obtain this kind of stock.

THE TERRITORIES.

Forty cars are being built for the coal company at Seattle.

The land disposed of at the Olympia land office during October amounted to 10,911 acres.

The people of Stevens county, W. T., have a petition to the Legislature asking for a division of the county.

Dissensions among the Washington Territory Republicans are growing more and more bitter. We guess they will never be satisfied till they have given up the Territory to the Democrats.

The Walla Walla *Union* says that one Jack Moran cut a man's mouth from ear to ear at Clearwater Bridge the other day, and also cut his ears off. For this Moran was seized by the people and hung.

Colorado has the credit of being the first to introduce a complete narrow gauge railroad to the notice of the country. The Denver people are jubilant over the successful working of a road of this description, 35 miles long, connecting that city with Colorado Springs. The success of this experiment will give new vitality to the numberless projects for three-foot railroads now being agitated in different parts of the country.

A correspondent of the St. Louis *Republican* makes a bad report of the results of political rights for women in Wyoming. He says: The women of Fort Laramie feel that they are equal if not superior to the men. It is not an uncommon thing to see the officers' wives go to the billiard room of the sutler at that post and play till one or two o'clock in the morning. When they break up you can hear (sung by liquorised female voices) snatches of songs, such as "Sam Fly," "Captain Jinks," "John Brown's Knapsack," and the world renowned song of bummers, "We won't go home till morning."

LATEST NEWS CONDENSATIONS.

Thurlow Weed has been pensioned under the new act of Congress for services rendered in the war of 1812.

The Examiner at the Patent Office has decided that portraits of Confederate Generals cannot be patented as trade marks for boots and shoes or other wares.

The extraordinary sum of $375,000 was recently obtained in two weeks from the Chickelian gold reef in New Zealand. Considerably more than a ton of gold was extracted from five hundred tons of quartz.

The amount of freight shipped from California to the East during the month of September was larger than in any preceding month, amounting in all to 8,907,507 pounds, or equal to 4,454 tons, or 445 car loads of 10 tons each.

Chicago was the center of the "patent inside" newspaper publishing business. As a great many of the Western country papers depended for their editing and printing on this expedient, one of the results of the fire has been a great rural constituency without papers.

There are indications that the Chicago insurance companies will do much better than was generally expected. The Republic, which at first resolved to pay 25 per cent. and disband, will, it is understood, reconsider that action and pay in full. The Company will pay 25 per cent. without waiting for an adjustment, and after the adjustment will pay the remainder. It is also asserted that the Boatmen's Company will pay in full.

Intense interest is manifested in New York in regard to the election. The final result of the New York complications depend upon the next Legislature to be elected to-morrow (Tuesday). Should it be carried in the Tammany interest, there is no doubt but that all the frauds and thieveries of the ring will virtually be ratified by Legislative enactments, and the perpetrators shielded against danger of being called to account.

A dispatch from Chicago, October 31st, says The Lake Park, fronting Michigan avenue for a full mile, now presents a very absorbing aspect. It is lined with comfortable, roomy, one story buildings, in most cases neatly painted without, and bearing the names of many of our great wholesale firms, and windows are piled high with goods, which are being rapidly sold to old and still confident customers. Dealers from outside districts can now have their orders filled promptly and well.

CURRENT NOTES.

A few days ago at the Infirmary of Steubenville, Ohio, two boys Philip Sheridan and Andrew Stewart took a poor little lame boy five years old, off into a secluded place, dug a grave, and buried the poor little fellow alive. A negro boy who heard his cries, gave information a short time after, but when the place was reached the boy was dead.

The "railways of the future" seem likely to be built largely on the narrow gauge. It is a remarkable fact that at this moment there are no fewer than fifty locomotives in course of construction in British machine shops intended for narrow gauge lines. These roads lie in Peru, Mexico, Brazil, Canada and Nova Scotia, in this continent; and in Russia, Australia and Sweden elsewhere.

There is a limit to even French ingenuity in loan-raising. It is possible that that boundary has been reached, or nearly so. Great distress prevails in Paris, on account of the ceaseless drain which the indemnity payments are making upon the finances of the country. Already, the Bank of France, which has linked its fortunes inseparably with those of the Government, has commenced the issue of paper currency, in small notes. This is the beginning of a series of desperate shifts, and will remind alarmists of the unwholesome assignats of the old Republic. Meantime, $700,000,000 of the war indemnity remains unpaid.

LAST NIGHT'S DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

EASTERN STATES.

New York Politics.

NEW YORK, Nov. 6.—The *Tribune* says that in some districts—notably, that of Bradley and O'Brien—intense interest in the election threatens a disturbance of the peace in place of a quiet election. The canvass of the past two months has been noisy and vigorous. Where the struggle is narrowed down to single candidates on the Ring and reform tickets, frequent disturbances are almost certain, though it is hoped the police and military preparations to suppress faction will prevent the general riot which is threatened. Only two tickets are in the field—that of the Ring or Tammany and Reformers. On the latter Republicans of both organizations and honest Democrats have formally united, the ticket being made up of both parties, and heartily endorsed and supported by the several Reform organizations.

The office of the Hoboken *Leader* was gutted this morning by unknown parties. It is believed to have been done at the instance of a rival Democratic faction.

The *World* relates a report regarding the plundering of South Carolina by State officers. It says later information shows the charges not only to be correct, but even so tempered in the interest of truth and justice towards all as to fall short of the real condition of affairs. The *World* also alleges an immense issue of fraudulent bonds by State officers of North Carolina, and promises in a few days the official figures regarding both frauds.

Pratt's Oil Works, at Hunter's Point, burned yesterday. During the fire a large tank of gasoline exploded, seriously burning four firemen. Loss $20,000.

Alice Carter, of this city, was taken from the Fifth avenue stage in a dying condition, on Saturday and died shortly after. A postmortem showed poison. She is believed to have been drugged by villains who answered an advertisement for a position as governess.

The *Times* is authorized to say that Governor Hoffman recommends the most Legislature, to abolish imprisonment for debt, and also recommends a modification of the law regarding the the undue detention of witnesses.

Crimes and Casualties.

WILMINGTON, Nov. 6.—Chas. E. Woolsey, a school teacher in "Christana" valley, was shot and killed yesterday, by Stephen H. Costner, Justice of the Peace. Costner surrendered to the authorities.

BROOKSVILLE, Ind., Nov. 6.—The Stewart Paper Company's Mill at this place, burnt this morning. Loss, $70,000. Insured for $25,000.

LOUISVILLE, Nov. 6.—At half past nine o'clock last night, the giving way of a column in the rear room of the African Baptist church, corner Fifth and York streets, created a panic among the congregation in the upper room and the whole body rushed, jammed and crushed into two narrow stairs on each side of the door, the men trampling over women and children in their fright. Eleven were killed outright, two of them children. A number are more or less wounded. One had a leg broken. The scene was terrible and heartrending. Mothers were screaming over their dead children and husbands in agony over wives. The column or pillar which gave way, proved to have been standing on the lower floor, between the joist, with nothing under it but inch flooring.

Another Rumor Regarding Secretary Fish.

NEW YORK, Nov. 6.—The *Tribune* reports the resignation of Secretary Fish, and says editorially that the country has been afflicted with innumerable rumors concerning the resignation. These finally have crystalized into a statement which we have from Washington in a shape so authentic and trustworthy that we are compelled to give it credence.

The meadamus compelling Mayor Hall to appoint new inspectors of election was vacated by Judge Barnard.

Gen. Sheridan's Occupation of Chicago.

ST. LOUIS, Nov. 6.—A special from Springfield, Illinois, says the defense of Gen. Sheridan's military occupation of Chicago seems to rest on the plea of necessity. It is not generally known yet if it is true that the Adjutant General of the State, an old and experienced soldier, reached Chicago the day after the fire with four hundred and fifty picked men, well armed, under orders from Governor Palmer to enforce the laws and preserve order. Under advice of Gen. Sheridan and Mayor Mason he returned home with his men because no necessity existed for either. After this the regiment of which Gov. Palmer complains was organized and called into service.

Later from New York.

NEW YORK, Nov. 6.—The water police demanded but did not get two months pay of the Controller to day.

Many rumors are afloat in regard to anticipated trouble at the polls to-morrow. It is reported that gangs of roughs came from Philadelphia for repeating purposes.

FOREIGN NOTES.

Seventeen wealthy Bonapartists have subscribed half a million francs for the new Imperialist organ in Paris, of which Clement Duvernois is editor.

M. Blanc, formerly lessee of the gaming establishment at Hamburg, and afterwards at Monaco, recently died at the latter place, leaving a fortune of 35,000,000 francs.

Eugenie was coldly received, it is said, on the occasion of her recent arrival in Madrid. The ex-leader of fashions was very plainly dressed. She wore a very simple black traveling suit, and no jewels of any description.

By the last census of Russia, and in accordance with estimates, the population of the Russian empire is upwards of 80,000,000, distributed as follows: Russia proper, 52,000,000; Poland (including the Polish provinces), 16,000,000; Finland, 1,800,000; Siberia and the Caucasus, 10,000,000; Turkistan, upward of 1,000,000.

GENERAL SHERIDAN.—The Chicago *Post* of a recent date publishes the annexed:

The New York *World* and the Chicago *Times* the one out of ignorance, the other through malice, have attacked General Sheridan in connection with his conduct of affairs in this city during and since the fire. It may be well to inform the *World* that Sheridan has earned the admiration and the gratitude of the people of Chicago, without distinction of creed or party; that he did more to restore the public peace, reassure public confidence, and drive from the city the horde of thieves and scoundrels that flocked to it from the east and west, than did all other men in authority. He positively refused to proclaim martial law, and never for a moment placed the military power in the city above the civil. He initiated the blowing up of buildings to check the progress of the conflagration, and, in many instances, carried the powder and set the fuse himself. His conduct has been marked by courage, common sense and manly simplicity, and whatever ignorant or malicious partisanship may have to say, Chicago knows her own mind upon this subject.

Yesterday, says the San Francisco *Bulletin*, of October 31st, a boy, Frank True Loveland, got into a quarrel with a playmate, and picking up a stone flung it at him with all the strength he could command. The missile did not hit the boy, but struck a cow, which was near him, to the ground, as if she had been struck with a bullet from a Henry rifle. To-day it was reported that the animal was dead and the owner desired to commence a criminal prosecution against the lad, but Judge Sawyer refused to entertain the complaint, and a civil action will be brought to recover the value of the cow.

From a Chicago letter of Oct. 21st, we take this: Immediately after the fire, the daily applications for relief numbered 40,000. This number has gradually diminished until there are only about 25,000 applications. The Shelter Committee, thus far, has received about 2,400 applications for lumber for the erection of small houses for homeless families. About 1,300 of these requisitions have been filled.

Brunot's Declination.

Speaking of Mr. Brunot's refusal to accept the office of Commissioner of Indian Affairs, the *Gazette* of Pittsburg, Pa., of which city Mr. Brunot is a resident, says:

His reasons for declining are entirely of a personal nature, not wishing to engage in what might prove a very unpleasant and thankless duty, that of weeding the bureau of many who are of no use there, either to the country or to the Indians. His disposition is the opposite of combative, and the system now in operation in this Department has run so long in the old grooves, that it will require a bold, fearless man, and one who is capable of standing up against controversy and abuse, to correct the system, and make it conform to the well ordered government that marks the other departments. Mr. Brunot does not seek such an uninviting task, and he will decline.

Southern Testimony Concerning the Ku Klux.

The indignation of the Democratic press of the country in consequence of the measures taken to suppress the Southern Ku Klux almost equals in intensity that which was manifested from the same source when the Government was engaged in suppressing the great rebellion. All the great batteries of denunciatory rhetoric with which the defenders of Union were assailed are reopened again against an administration that has resolved to put down this last Southern conspiracy. This is not surprising. It is just what the general conduct of that party might lead us to expect. It suits them to represent the Ku Klux as a myth, and the measures taken by the Government are characterized as persecution and oppression of a peaceful people. Southern Democratic journals, however, admit the existence of the Klan, and in a few cases profess to deprecate its operations. For instance, the Charleston (N. C.) *Bulletin* says that in that place "letters have been forced upon persons threatening them with the vengeance of the Klan." It adds: "Shall these disturbers of the public peace be allowed to commence their damnable work in this hitherto peaceable community?" In South Carolina, in the counties recently placed under martial law, there have for months been outrages and murders, and hundreds of well attested cases have come to light. In fact, so notorious are the operations of the Klan that Southern Democratic papers no longer attempt to deny the existence of a thoroughly organized body of conspirators, numbering thousands in every State. Northern Democratic journals in piping for this organization and trying to get up sympathy for it are simply wasting ink and paper.

A communication from Spartansburg (S. C.) to the Columbia *Daily Union*, dated October 18th, says:

The Kuklux in this county are coming in by tens and dozens, and surrender themselves up to the United States authorities. They are exposing the great mystery. Those who come in and surrender themselves use their power and influence to bring their bloody and guilty leaders to justice. Many prominent Democrats are reported as having fled from justice. Many even from the House of Representatives and the pulpit are gone.

Why such haste to flee if not guilty? The leaders of the gang, when their crimes are exposed, take themselves away with as much precipitation as did the leaders of the New York Democracy recently, when their wholesale public robberies were discovered. The *Union* adds to the above:

What is said by this correspondent is fully substantiated by private letters from the same locality. The United States Marshal has about seventy-five prisoners of the Order of the Invisible Empire, and many more are coming in every day. On Wednesday a chief, at the head of his klan of twenty followers, surrendered to the authorities, much to the disgust of the lookers-on. There has been a terrible unearthing in that vicinity, as will be shown in a few days. Nor will the work stop there. The whole secret is known, and we say here to the law abiding and order loving people of South Carolina, you will be most terribly surprised when you learn the extent of this villainy. Men high in social position have been found among the prominent supporters of this infernal Order, and even those who profess to be public teachers through the columns of the press are numbered among the members of the mystic klan.

If the Oregon Democratic press think anything is to be gained for their party by championing this Klan, by all means let them go ahead.

A Petition in Behalf of Polygamy.

Some time ago it was announced by telegraph that a petition of Mormon women against polygamy, fifty feet long, had been received at Washington by General Grant. A subsequent dispatch shows that the petition is addressed to Mrs. Grant, and is in favor of polygamy. The document itself is highly curious. It expresses the belief that "God did anciently institute the order of plurality of wives." Also, it says: "We not only believe, but most assuredly know, that the Almighty has restored the fullness of the everlasting Gospel through the prophet Joseph Smith, and with it plurality of wives. This we accept as a purely divine institution. With us it is a matter of conscience, knowing that God commanded its practice."

This is a forcible illustration of how the human mind may be warped by fanaticism when it comes under the garb of religion. The Mormon women represent that they, their husbands, sons, and brothers are "exposed to the murderous policy of a clique of Federal officials, intent on the destruction of an honest, happy, industrious and prosperous people," assert that the charge of licentiousness against the polygamists is an "outrageous absurdity," and ask the wife of the President to intercede for the removal of the "malicious disturbers." To this document something like twenty-five hundred names are appended.

Says the New York *Tribune*: Theodore Tilton's extraordinary biography of the fair lady who sits at night upon the ridge pole of her "stately mansion," communing with ghosts, is attracting on the other side of the Atlantic the notice which it richly merits. It is indeed a matter of no slight moment to the world that Demosthenes, after a silence of about 2,200 years, is speaking once more to mankind, even though it be through the medium of a woman's lips and a newspaper; and we are not surprised that the London *Daily News* should devote to the Tilton-Woodhull alliance and its curious fruit a most interesting leader from the pen of one of its editorial contributors well known in New York literary society. Judicious persons will be pained to observe in the article a slight sub-flavor of incredulity, not to say sarcasm; but if Mrs. Woodhull's utterances betray no internal evidence of the inspiration of Demosthenes, it should be remembered that the eloquent tongue of the Grecian orator has probably grown rusty after twenty-two centuries' disuse.

Great excitement is reported at Astoria in consequence of the building of Holladay's wharf and the filing of the mortgage on the railroad land grant. People there think they are going to have a railroad in a year or two, and a large city soon thereafter. Astoria, it would seem, is prematurely excited. A dozen years hence will be time enough for her to begin to look for railroad connection with the interior. From what we can learn the prospects are not flattering that a road will be built through very soon. But Astoria appears to be prospering, and we are glad of it. Land has risen in value very much in that vicinity recently.

The Olympia *Tribune* speaks very favorably of S. W. Brown, Esq., of Vancouver for the nomination for Delegate to Congress from Washington Territory. Heretofore that paper has been a thick-and-thin Garfield organ. We may infer that a change is taking place over the river. The *Tribune* wants a "man that "the party can unite on;" which is as much as to say that in its judgment Mr. Garfield does not fill the bill.

A German Navy.

Germany is making great exertions to found a navy. Twelve million thalers are set apart in the estimates for the purpose for the present year. These estimates are very unusual in the German budget, and excite much interest on account of their novelty. A recent letter from Berlin says:

Prince Adalbert, the High Admiral of Germany, has been visiting all harbors and shipyards where great activity still prevails, and there seems no doubt that Germany is bent upon producing a strong naval force. Orders have already been given for two new iron-clads of the largest size to be begun next spring. Considerable sums are set apart for the completion of fortification works at Kiel and Wilhelmshaven; and, above all, Government appears to have concentrated its attention upon the further development of the torpedo system. A separate torpedo detachment has been formed, composed of a Commander, 9 Lieutenants, 35 warrant officers, 200 sailors, and some gunsmiths and side attendants, and 200,000 thalers are to be spent entirely upon torpedo experiments. The entire naval force of the Empire at present numbers 3 Admirals, 65 Captains, 205 Lieutenants, 190 midshipmen, 12 engineers, 903 warrant officers, 5,259 sailors, 499 ship-boys, and 1,859 in the supplementary service—altogether, therefore, 8,995 officers and men. As new ships of various sizes are in construction, next years list will be considerably longer. In addition to this, it must be remembered that by applying a kind of landwehr system, (in that case called seawehr,) to the navy, Germany trains up an excellent reserve force, besides the numerous compulsory and voluntary coast guard for protective purposes.

Losses in the Franco-German War.

The Sacramento *Union* in discussing the published statistics of the late Franco-German war, makes some very interesting comparisons. The loss of the Germans from the beginning to the end of the war foots up as follows: Killed, 18,600; wounded, 87,000; missing, 6,000. Total killed, wounded and missing, 111,000. Upon this showing the *Union* makes the following comments:

This is far less than the Romans lost in the two battles of Thrasymene lake and Cannæ, and only about four times the French loss at Waterloo, though Napoleon in that engagement had but 72,000 men. At Borodino the Russians lost 52,000 men, the French 30,000. At Leipsic, in three days' fighting, the two armies lost over 100,000; and at Austerlitz the allies, out of a total force under 90,000, lost 30,000, of whom 10,000 were either killed or left for dead on the wintry field of battle. In the single battle of Gettysburg, where there were not much over 100,000 on each side, the Confederate losses, as officially reported, footed up 4,500 dead, 26,500 wounded, and 13,500 missing. On both sides the losses were as follows: Killed, 7,500; wounded, 40,200; missing, 20,143; total, 67,933. This is more than half as many as all the German losses in the late war. The difference in casualties can only be accounted for on the theory of more dogged fighting on the one hand, and better discipline and more prudent generalship on the other.

New York is taking great interest in the rebuilding of Chicago and sustaining her trade. A principal reason for this appears in a communication by a New York merchant to the *Journal of Commerce*. He says: "What Cincinnati is to Baltimore, Chicago is to New York. Blot out Chicago, and the trade she now has would be divided between St. Louis, Cincinnati and Milwaukee. That part of it which St. Louis got would go largely to New Orleans and Baltimore. The part which Cincinnati got would largely go to Baltimore also, while the part which fell to the lot of Milwaukee would be divided between New York and Boston. It will readily be seen that the most serious blow which New York could receive would be the destruction of Chicago."

Charles Dickens.

A writer in *Blackwood's Magazine*, takes a view of the character of this great novelist, somewhat different from the prevailing estimation of him, as follows:

"The curious thing in the works of Mr. Dickens is, that whereas he has added a flood of people to the population of the world, he has not added one to that lofty rank where dwell the best of humanity. He has given us the most amusing fools that this generation knows, the most charmingly genial people in difficulties, the most intolerable and engaging of bores. But he has scarcely left us one character which is above ridicule, or of which we think with a smile and a tear mingled, as it is the highest boast of your true humorist to mingle smiles and tears. Not to ascend to any Shakespearian heights; there is not even such a light as Uncle Toby shining out of his pages; there is nothing like Thomas Newcome. He tries hard, and strains, and makes many an effort to cover the deficiency, but what he produces is human, not real—it is maudlin, not pathetic. His highest ideal has a quiver, as of semi-intoxication, in its voice; its virtue is smug, self-conscious, surrounded by twittering choruses of praise. There is not even a woman among the many in his books that would bear putting up by the side of the women who live to live forever; and how strangely wanting must be the man of genius whoe cannot frame one woman, at least, worth placing in the class where Una is! This is the strange drawback, the one huge deficiency, that must always limit the reputation of the much-worshiped novelist. Mrs. Gamp no doubt, is great; but she will not serve our turn here. He has represented with the most vivid clearness almost every grade and species of Fool. He has painted ridiculous people, silly people, selfish people, oddities, eccentrics, a thousand varieties—but among all these has never once stumbled upon the simple, true, ideal woman, or any noble type of man. Looking at his real power, his undeniable genius, the wonderful fertility of his imagination, the spectator asks with a certain surprise, How is it that he never fell upon one such accidentally as we do in the world? The wonder seems how he could miss it. But miss it he did, with the curious persistency of those fate-directed stops which are fain to enter into every path but one. This is the first characteristic of Dickens among his compeers in the world of literature. He has given us pictures as powerful, individualities as distinct, as any have done. Perhaps he has added to our common talk a larger number of side reflections from the thoughts and experiences of fictitious persons, than most writers even of equal power. But he has not created one character so close to us, yet so much above us, that we can feel him a positive gain to humanity.

General Grant's Presents.—Mr. Tilden alludes to President Grant as one "who has been enriched by costly presents while exercising the immense power of the Presidency." This is an unqualified assertion, made as if upon absolute knowledge, and yet, speaking upon all the information I have, I believe it utterly unfounded. The allegation is that since his election to the Presidency General Grant has been the recipient of costly gifts. Returning from the war a victorious General, and holding no civil office whatever, he did receive gifts showered upon him by a grateful people, but he received them as the hero of many battles, and before he was even nominated for the Presidency. His case was not solitary. General Sherman also received munificent testimonials; so did other Generals. Gen. McClellan ran for the Presidency four years before General Grant ran. He, too, was "enriched by costly presents," given, doubtless, in consideration of his military services, and his political opponents never cast foul aspersions on him for it. Wellington, after Waterloo, received presents amounting to more than two million dollars. Whether heroes, in former or in recent times, have done well or ill in accepting tributes from their countrymen, is not, however, the point here. Be that one way or the other, the right or wrong is the same in all cases alike; and since General Grant's accession to the Presidency, as far as I can learn, he has never accepted a "costly present" from any one.—*Senator Conkling.*

A prize package man in Indianapolis seduces the crowd by shouting at the top of his voice: "Walk right up, gentlemen, you know the more blanks you draw the more prizes there are left!"

PACIFIC COAST DISPATCHES.

[SPECIAL DISPATCHES TO THE OREGONIAN.]

CALIFORNIA.

From San Francisco.

San Francisco, Nov. 6.—The officers of the abandoned whaling fleet who arrived here by the *Moses Taylor* say the disaster was predicted by the Esquimaux along the shores of the Arctic long before it occurred, and had they listened to the warnings of the natives the whole loss might have been avoided. It was regarded merely as predictions of ignorant Indians are usually regarded in this country, and no attention was paid to it.

A special agent is sent from the postoffice in San Francisco to Vallejo under the new arrangement, every evening, and the two hour's time consumed in the voyage is saved by assorting the eastern mails on the steamer coming down.

Two Chinawomen, arrested on suspicion of poisoning a countryman who died yesterday, state that he had been quite despondent and doubtless poisoned himself because one of them would not marry him.

The Pacific Wood Preserving Co., whose works on Berry street were burned yesterday for the second time within a year, will rebuild immediately.

None of the vessels of the whaling fleet were insured in California Companies. The only losses were on cargoes and those very light. The Merchant's Insurance Co. had $10,000 on the *Victoria*, $10,000 on the *Wm. Hotch* and $23,000 on the *Florida*. Of the last named amount, $17,000 was reinsured in the Union, who also had $20,000 on the *Victoria*. These are all the losses so far as known.

The new grand jury was empannelled to-day, and Judge Stanley charged the jury's attention first to the prisoners in jail, then to lottery dealers and gamblers, calling particular attention to the act making it a misdemeanor to rent a house to be used for gambling purposes.

The mandamus case of Dr. O'Donnell against Governor Haight to compel the issuing of a military commission was called at 2 o'clock to-day, and the demurrer to the jurisdiction of the Court, submitted by the defendant, was overruled by Judge Morrison, who said he had no question as to his jurisdiction. The case then went over till to-morrow.

Judge and ex U. S. Senator Williams, of Oregon, arrived here overland from Portland last night, and will leave for the East on Wednesday morning.

Weather continues clear and cool.

After the Board this evening a dead set was made on Ely on the street, and it sold freely down to 78 and 79. One sale of one hundred shares, seller twelve months, was made at the latter figure.

Edward H. Hallock is under arrest for alleged arson, committed in South San Francisco last August.

The Hawes will case is set for hearing on the 14th inst.

On Saturday night an attempt was made to fire a vacant house on Scott street, but was discovered in season to save that and the adjoining property.

Arrived this evening, overland, B. H. Cardwell, wife and child, Portland.

Four vessels are now on the berth for Portland, namely *Leicester, Orient, Rival* and *Windward*, all to sail within the present week.

INTERIOR CALIFORNIA DISPATCHES.

Sacramento, Nov. 6.—A meeting of the creditors of B. F. Hastings is called for Wednesday afternoon, at the office of George Cadwalader, to which H. F. Hastings will submit a detailed statement of the affairs of the bank. There is undiminished confidence that the resident partner has pursued the most prudent course under the adverse circumstances in which he was placed, and no doubt is entertained that he will do everything possible to protect creditors.

Vallejo, Nov. 6.—John M. Coughlan, Congressman elect, started from Suisun this morning for Washington by the overland route.

Los Angeles, Nov. 6.—Two hundred and fifty feet of the Wilmington breakwater is finished and accepted by the Government. All of the timber used is redwood, and was delivered at Rattlesnake Island for the first section of 3,700 feet.

A large number of miners are passing through from the Sacramento district to the new mining district.

A company of Chinamen have commenced smoking and drying wild geese for the China market.

Ice formed in San Bernardino on Saturday morning last.

Stockton, Nov. 6.—Jacob Wagner was assaulted at his residence this morning, by Andrew Ester, and stabbed in two places, five inches below the armpit. The wounds are serious but not necessarily fatal. Ester is now in jail.

At a meeting of the Common Council to-night, the committee to whom was referred the matter of the $300,000 bonds to the Stockton and Visalia railroad, reported unanimously in opposition to granting the same.

ARIZONA.

San Diego, Nov. 6.—Correspondence from Tucson, Arizona, has the following: The horse, saddle blankets and pistol belonging to the mail carrier of the Sonora mail line, who was murdered on the 13th of September, within two miles of Tucson, have all been identified in the possession of Indians on the Camp Grant reservation. The murder occurred while Collyer was at Camp Grant. Three horses stolen at the same time, near Tucson, have been discovered in the possession of Camp Grant Indians.

PICKINGS.

The Pittsburg *Commercial* seems to have no great opinion of Joaquin Miller, as calls him it a "literary ring-tailed roarer."

Autograph letters of Alexander von Humbolt, revealing a curious love affair which he had with a young French lady, have been found in the Berlin house formerly occupied by him.

The San Francisco *Alta* says that the crime of jerking the hair out of your wife's head is not so sinful as it formerly was. It is just as ungentlemanly as ever, but it doesn't hurt as it used to.

The Louisville *Courier Journal* says: Upwards of a hundred men had their legs cut off by reaping machines during the late harvest. If we were a famer, we would see McCormick hanged before we would buy one of his machines, unless he would throw in a pair of crutches.

Intellect is a good thing to have, but somehow it don't go far enough. An Indiana cooper, finding considerable difficulty in keeping one of the heads of a cask he was finishing in its place, put his son inside to hold the head up. After completing the work to his satisfaction, he was astonished to find his boy inside the cask and with no possibility of getting out except through the bunghole.

Here is an extract from a characteristic letter from a Chinagoian to a brother in Philadelphia: "Dear Brother: How will you trade now? Will sell you may store, fixtures, and stock with insurance policies cheap for cash. Have been at work all day uncovering the safe. It is a knife too hot to handle without gloves. Am a little anxious to know whether the books are legible. All safe and well at the house. Thousands without a rag except what they have on—where they sleep I know not. Iam feeding a few, because my credit is good at the butcher's and grocery. Cash on hand six dollars and some cents. No need of going abroad to see ruins; have got miles of them at home. Chicago can burn up quicker than any city I know of."

Early Beginnings in Journalism.—It is a remarkable fact that the smaller the beginning the greater has been the achievment in journalism. James Gordon Bennett was educated for the priestly office, but abandoned this plan for teaching, which he performed soon after his arrival in this country, after which he delivered a course of lectures in New York city, which, like his instructorship, proved a failure, and when at last he commenced the *Herald* it was as small an affair as could be imagined. In a cellar in Wall street (No. 20) the *Herald* was born. Here it is said that Bennett held his office, and here he might have been seen dashing off his pungent paragraphs, his table being the head of a barrel, while near by was a pile of *Heralds* for sale, price one cent. "Take one," was the laconic reply of the proprietor to his customer, "and leave your money," uttered often without looking up from the sheet over which his pen was travelling at furious haste. Let this scene be contrasted with the *Herald* of the present day, and one may see the importance of small beginnings. We need hardly allude to the fact that the great house of Harper Brothers was founded by journeymen printers, or that Bonner, himself a printer, assumed the *Ledger* when it was a losing affair; and yet out of this almost hopeless sheet he has made a million.

Perhaps no one ever heard before this year, of a centenarian committing suicide, but since an old lady 115 years old recently drowned herself in a well because she thought death's angel had overlooked her, more old people than young ones seem to be making their own terms with the grim destroyer. The latest is Henry Wolfe, of Waldesboro, Ky., who, after living 108 years, without ever being sick, lay down in his corn field and cut his throat.

REMARKABLE CURE OF THE DEPUTY JAILER OF MULTNOMAH COUNTY JAIL.

"The work goes bravely on." Case No. 5,240—Second series.

City Jail, Portland, Oregon, June 7, 1871.

A. M. Lovell & Co.: I was attacked with a severe case of rheumatism. Itimes in my thighs, hips, fingers, shoulder blade—indeed in all the joints of my body I suffered great pain and anguish. I was attended by a regular physician but with no effect. I was induced to try your Uni Wood Remedy, and it immediately cured me up. I consider it from my experience, the best remedy for rheumatism known.

CITY.

WEST SIDE ITEMS.—A friend who has been making a tour of the west side counties, furnishes us the following:

The new town of Cornelius has not disturbed the equilibrium of Hillsboro. The two towns are but three miles apart. The County Commissioners, with an eye to the future, are ready to make a bold strike and secure the county seat at Hillsboro by erecting a new court house.

As the boats do not make connection above Dayton, the west side stage company is carrying a large number of passengers to McMinnville.

During the past year Forest Grove has improved greatly. A number of fine residences have been erected, and the town wears an air of prosperity. The Normal school and Academy at McMinnville, under Prof. Reith, has 115 pupils, and is in a prosperous condition. The legislating debates, dramatic shows and traveling "beats" afford the citizens of McMinnville an unceasing fund of amusement.

The Yamhill river, above Sheridan, is being dammed so as to carry its waters into a ditch which was intended to carry water into McMinnville. Four miles of the upper end of the ditch is already completed.

The Court House at Lafayette has been painted, and now presents a neat appearance.

Since the late rains the fall wheat fields are becoming quite green.

EXPECTANT ASTORIA.—A genuine sensation has been enjoyed by Astoria during the last week or two. We let a chronicler of that town tell it, copping from one of his letters to the McMinnville paper: "For several days during this week a stranger, tall, and dressed in dark, moved about town alone, and without any apparent business. Some few having seen the man before, designated him as one of the prominent railroad men of the State; but none knew his business, and much curiosity was consequently aroused. But this morning the matter leaked out, nearly upsetting some of the people. When Holladay's wharf first started, it was reported that two girl infants were born to Astoria, and both named Ben Holladay; but this time Astoria is unable to do the subject justice. The business of this mysterious man in black seems to have been to place upon the County Record a mortgage upon all the road, land franchise, etc., of the O. & C. or West Side railroad, for security of the company's bonds."

JURY LIST.—The following is the jury list for the November term of the Circuit Court, for Multnomah county: George V. James, trader; Charles H. Perkins, hotel keeper; John O'Connor, grocer; A. J. Marshall, collector; Wm. Church, miller; W. A. Buchanan, merchant; George Hibbard, merchant; N. D. Gillham, farmer; Jas. Parlaw, trader; Jesse T. Bowles, farmer; Joseph Bowell, farmer; J. Kobon, merchant; C. W. Knowles, speculator; C. G. Hummell, gardner; John Lake, farmer; E. Giese, farmer; S. Pannoyer, editor; P. Opits, baker; W. B. Fain, ...ulator; J. W. Cook, speculator; Edward Barton, farmer; George W. Hillman, merchant; ... Latourell, farmer; William Masters, ...; D. J. Holmes, speculator; John A. ...ish, merchant; Mark A. King, assayer; George M. Long, T. J. Cutler, Walter Moffitt, Isreas Gradon.

SENSIBLE MOVE.—Front street, in the vicinity of the gas works, has always been the theme whereon teamsters and divers and sundry other persons have vented an unusual amount of swearing. During the rainy season the mud becomes so deep that the street is almost impassable. With a view to remedy this, and to withdraw the temptation for swearing on the part of the parties aforesaid, a number of planks that look as if they had done good service elsewhere, are being laid, or rather thrown down, over the section of the street referred to above. The intention is doubtless a laudable one, but, judging from present appearances, it is being very poorly carried into execution.

OFFICERS INSTALLED.—At a meeting of Multnomah Lodge No. 12, I. O. G. T., held last Saturday evening, the following officers were installed: J. A. Smith, W. C. T.; Mrs. W. H. Wood, W. R. S.; Miss Florence Skinner, W. L. S.; J. A. Waters, W. S.; Miss M. Anderson, W. A. S.; J. L. McOown, W. M.; Miss Irene Colvig, W. D. M.; Miss E. Flaher, W. T.; Miss Lena Fisher, W. I. G.; H. Northrup, W. O. G.; Annie Hayden, W. S.; D. McKay, P. W. C. T.

SUPPLEMENTAL.—In our article in yesterday's issue under the heading "Whose Fault?" we did not intend in any way to cast a reflection upon our present Street Commissioner, but sought to correct an abuse that has grown out of the manner in which the Common Council grant permits for the use of the public thoroughfares. Mr. Mansell is conceded by all to be the most efficient Street Commissioner the city has had this many a day, and as such is entitled to praise.

THEATRICAL SEASON.—A letter received yesterday from Mr. Bates states that one of the reasons for his not being here at the time anticipated was that owing to the unusual number of theaters running in San Francisco and elsewhere, it was ... for him to obtain a company; all the ... talent having been engaged. He, however, thinks that he will succeed in obtaining a company, in which event he will open here the second Monday in December.

ESCAPE OF A DESERTER.—A deserter from the 21st U. S. Infantry, in charge of the Sheriff of Walla Walla county en route for Vancouver, made his escape at the Lower Cascades to-day. By some means he succeeded in getting rid of his shackles, and being unencumbered, managed to make good his escape. A party is in pursuit, and the chances are that the fellow will be recaptured.

COMING.—A letter received here yesterday from Illinois states that in the western portion of that State there is considerable excitement in relation to Oregon, and that early next year a large emigration from that State may be expected.

MEETING OF LADIES.—An adjourned meeting of the ladies of Portland to devise means for the relief of the sufferers in Wisconsin and Michigan will be held at the Presbyterian church this (Tuesday) afternoon at 2½ o'clock.

COUNTY JAIL.—The County jail at present is the abode of twenty-nine individuals, who, not fearing the mandates of the law, now find themselves engaged in that highly intellectual pastime of playing checkers with their noses.

AID FOR THE SUFFERERS.—The ladies of the Unitarian Society a few days ago sent a box of clothing, containing two hundred articles of wearing apparel, to the sufferers by the fires in Wisconsin and Michigan.

DOUBTFUL.—There is a rumor in circulation to the effect that the owners of the tugboat at the mouth of the Columbia river intend to withdraw her from the Bar and place her on the river route as a tow boat.

FOG.—The fog on Sunday night was so thick that it was impossible to distinguish objects five paces off, and we failed to perceive that the gas lamps threw any light on the subject.

U. S. DISTRICT COURT.—The November term of the U. S. District Court commenced yesterday. The Court simply met and adjourned until to-day when the Grand Jury will be drawn.

U. S. DISTRICT COURT.—At the opening of this court this morning Judge Deady will announce the decision in the case of McKay vs Campbell—the election case, from the Dalles.

CHANGE OF SAILING.—The sailing of the *Gussie Telfair* for Victoria, San Juan, Nanaimo and Sitka, has been postponed until to-morrow (Wednesday) at 7 P. M.

POLICE COMMISSIONER.—Governor Grover has appointed Eugene Semple Police Commissioner in the place of Mr. Blanchard, whose term of office expired some time since.

FESTIVAL.—The ladies of the First Congregational Church will give a festival in the vestry of the church, corner of Second and Jefferson streets, on Wednesday evening.

LADIES' RELIEF SOCIETY.—The Ladies' Relief Society will meet at the usual place to-day (Tuesday), at 2½ o'clock. A prompt attendance is requested.

PERSONAL.

Robt. Burrell, manager of the bank of British North America, arrived in the city last evening and is stopping at the St. Charles Hotel.

AMUSEMENTS.

ACROSS THE CONTINENT.—Batchelder's "Tour Across the Continent" will be exhibited at the Oro Fino Theater this evening. The press elsewhere speak of it in high terms.

BUSINESS NOTICES.

DRUG STORE.—Messrs. Smith & Davis have purchased the drug store known as the "Oregon Dispensary," 73 First street, and have transferred their prescription and general retail business to that stand.

BOOTS AND SHOES.—The attention of our readers is directed to the advertisement of T. Rodgers' boot and shoe store, First street, near Morrison. Mr. Rodgers turns out nothing but first class work.

Vichy Waters are curative in Gravel, Stone, Vesical Catarrh, Affections of the Intestinal Tube, Liver, Spleen, Hepatic Colic, Painful Cachexia, Albuminuria, Chlorosis, etc., and most soothing and preventive in Gout, Rheumatism, Rheumatic Gout, Diabetis, etc. For sale at O. H. Woodard & Co.'s Drug Store, Front Street, Portland.

A WORD TO THE WISE IS SUFFICIENT.—Be it known to the People of Portland and the surrounding country, that at the extensive clothing establishment of Kohn & Fichel, 91 Front street, they are selling new and stylish suits for Fall and Winter wear at prices that are astonishingly low. Call at the House and examine the large stock of Clothing and Furnishing Goods. You will come away satisfied.

PERKINS & HOUSE'S SAFETY LAMPS.

It is perfectly non-explosive. The light is better than is produced by any other lamp. I believe it to be true economy in view of the safety, the quality and quantity of the light produced, and the durability of this lamp, to throw away all other kinds and use this only.

PROF. W. S. CLARK,

I know it to be by far the best light we have ever used in our family. I know of nothing that can compare with it. I prefer it to any gas burner I have ever seen. For safety, for economy, and for the perfection of the light, it deserves to come into universal use.

The Martyrs of Neglect.

It is not too much to say that tens of thousands are now suffering from biliousness, indigestion, constipation, periodical fevers, general debility, and nervous affections who might be restored to perfect health within a month or less by the use of Hostetter's Stomach Bitters. The multitudes who have been cured of these and other ailments by the use of this well known specific are always ready to testify to its virtue as a preventive and a remedy. They are spread over the whole country; they are eager to praise and recommend it; and yet, notwithstanding its vast popularity, there are many invalids, many who are continually exposed to the epidemical diseases, against which it is a sure protection, who, either through indifference or incredulity neglect to seize the opportunity to cure and means of prevention, which they have only to reach out their hands to obtain. This is strange, it is one of the anomalies of human nature which it is impossible to account for or explain. It is, however, quite certain that every day the number of these Martyrs of Neglect is diminishing. This is proved by the statistics of the sales of the great remedy. During the present fall the demand for it has increased beyond all precedent, and it seems as if in the end the entire community would realize the important fact, that when all other medicines prescribed for the above complaints fail, it can and does effect a cure. As a protection against the diseases most common at this season, there is nothing comparable with it.

TO OUR PATRONS AND THE PUBLIC GENERALLY desiring to make SAFE and RELIABLE Investments in Real Property, we beg leave at this time to call your attention to this DESIRABLE TRACT, which has been subdivided into Blocks and Lots, and is now in the Market, to be sold in Alternate Lots and Blocks.

No one that has ever visited this body of Land but what will say that it is the MOST ELIGIBLE for SUBURBAN RESIDENCES of any ever offered in this market, the land having a gradual slope from the River back to SEVENTEENTH STREET, there being scarcely any Block in the entire tract but what a

Fair View of the City of Portland and Willamette River

Can be had. Another advantage this Property will have for Residences: no high water will ever affect the drainage of the city.

The Oregon and California Railroad Company's New Ferry Boat is now making Regular Trips from the Foot of F street, Couch's Addition, to the Foot of Oregon street, Holladay's Addition.

IMPROVEMENTS TO BE MADE:

Aside from gigantic Improvements now in contemplation by the Railroad Company, in the construction of Wharves, Warehouses and Machine Shops, quite a number of citizens will commence erecting fine Residences and Business Houses; also, Street Improvements, under contract, by grading and planking Holladay Avenue its entire length, to connect with the Sandy Road. We can say that at least a Half Million Dollars will be expended in Permanent Improvements on this Addition the present season.

TERMS OF SALE—40 per cent. CASH down; deferred payments, six and twelve months, with interest at the rate of 10 per cent. per annum.

NO QUESTION AS TO TITLE

The Title to this property is undisputed, being a portion of the Donation Land Claim of Jacob Wheeler and wife. United States Patent issued, and conveyed by said Wheeler and Wife to Geo. W. Vedder.

☞ Parties desiring to invest will find Maps and Plats of the property at our Office, or at the Office of Messrs. FERRY, RUSSELL & WOODWARD, and other LAND AGENCIES in the city.

NEW YORK
LIFE INSURANCE COMPANY!
PURELY MUTUAL!

ASSETS.....$17,000,000!

ISSUED 9,925 POLICIES IN 1870,
Insuring Over $37,000,000!

WM. H. BEERS, Vice President and Actuary. MORRIS FRANKLIN, President.

AMONG THE ADVANTAGES OFFERED BY THE NEW YORK LIFE INSURANCE COMPANY are:—

1st. PURE MUTUALITY, so that the *entire surplus earnings* over the actual cost of insurance is returned to the policy holders who are the only members.

2d. AGE, having been organized in 1845. It has the benefit of the experience of a quarter of a century, and members are thus guaranteed from all doubtful *experiment* in the method of conducting its business.

3d. STABILITY AND PERPETUITY shown by the accumulation of a capital of *Seventeen Millions of Dollars*, after paying all losses promptly, and returning large dividends to its members. It has now an income of over *Seven Millions of Dollars*, and the interest on its investments, with premium on gold, &c., has been sufficient during the past two years to pay according losses.

4th. NON-FORFEITURE OF POLICIES. It *originated* the system of non-forfeiture of policies, and to it the public are indebted for a feature so favorable to the insured.

5th. SUICIDE does not cause a forfeiture of the policy, that being considered an evidence of insanity, and insanity the result of disease.

6th. DIVIDENDS: Its dividends are declared annually, and are available *immediately as cash in payment of premiums*. Many companies declare their premiums insecurity, but do not pay them till several years thereafter; others defer their declarations for two, three or four years from the time the policy commences. In this Company a party always has a dividend which can be used in the payment of the *second and all subsequent annual premiums*.

7th. ITS DIVIDEND SYSTEM is the "Contribution Plan," by which each member is charged with the exact cost of his insurance, and receives back his surplus payments. Those dividends can remain with the Company, participating in its earnings, and be used at any subsequent period in the payment of premiums.

8th. LIBERALITY IN SETTLEMENT OF LOSSES. Experience has shown that cases arise where policies, although EQUITABLY claims, are not LEGALLY so. The records of this Company bear many acknowledgements from widows and relatives of deceased members of its liberality and fairness in settlement of all such losses. There being no stockholders in the Company to share its profits, interests adverse to policy-holders cannot possibly arise, the trustees simply occupying the position of arbitrators between the members, with no inducement to favor one and give to another.

ÆTNA
LIFE INSURANCE COMPANY,
OF HARTFORD, CONN.
FOUNDED IN THE YEAR 1820.
Adopted Mutual System in the year 1861.

ACCUMULATED CAPITAL OVER.....$15,000,000.
ITS ANNUAL INCOME OVER.....6,000,000.
WHOLE NUMBER OF POLICIES ISSUED TO DATE, NEARLY.....100,000.
NUMBER OF POLICIES ISSUED IN 1870.....11,317.

THE ÆTNA RANKS AS ONE OF THE FIRST COMPANIES IN THE LAND!

IN INCOME, IN ASSETS, IN NUMBER OF POLICIES, IN AMOUNT INSURED, IN SOLIDITY AND STRENGTH. IN SOUNDNESS, CHEAPNESS, PROMPTNESS AND SUCCESS.

THE AMOUNT OF DIVIDEND A COMPANY CAN PAY ITS INSURED, DEPENDS UPON THE RATES charged for insurance, the AMOUNT of business done, the EXPENSE of doing it, the INTEREST on its investments, the CARE exercised in the selection of its risks, and the TIME when such dividends are paid. In regard to these, as also all other points, the ÆTNA is unsurpassed in advantages by any other Insurance Company in the United States.

The *New York Insurance Monitor* says of the Ætna:—"No Life Insurance Company ever achieved so complete a success as this popular institution. Its popularity is altogether unprecedented in the annals of commercial enterprise in this country."

The *New York Independent* says of the Ætna Life:—"It is to-day one of the *soundest* and *most reliable* Insurance Companies in the United States—every dollar of its assets well secured, more than providing for all its liabilities; and it eminently deserves a still greater patronage and the unhesitating confidence of the public."

The export of specie from New York from Jan. 1st to Oct. 23d, aggregated $57,310,380. For same time in 1870, $61,243,749. For same time in 1869, $28,193,177. For same time in 1868, $66,840,470.

The New York *Times* of the 25th predicts a continued easy money market. It says the exceptional demands for Chicago were met the week before, and the signs of the times were against any renewal of such a demand.

At a meeting of the National Insurance Convention at New York, Oct. 23d, the following resolutions were adopted:

Whereas, The collection and combination of the actual experience of American life insurance companies, as illustrating and establishing the law of mortality among insured lives within their own field of operation, has become eminently desirable and important, therefore

Resolved, That this convention request the Insurance Commissioners of State insurance officials and actuaries and managers of life insurance companies, who shall constitute a joint special commission, to assist in the collection of the requisite data, and to compile the same as standard and complete American Experience Table of Mortality.

The committee provided for by the foregoing resolutions was appointed as follows: Myers, Clarke, Massachusetts; Kelsey, New Jersey; Caldwell, Indiana; Packler, [illegible]; Fitch, North Carolina.

The San Francisco *Bulletin* of the 31st ult. says: "All the local Insurance Companies who suffered by the Chicago fire have levied assessments to repair their capitals, except the People's. These assessments aggregate $1,503,500, which forms the bulk of the amount of our underwriters' indebtedness to Chicago. We are glad to note that the business of our local companies has greatly increased since the fire at an average advance in premiums of 50 per cent.

The North British and Mercantile Insurance Company make an exhibit in the New York papers of their losses by the Chicago fire, the whole amounting to $1,900,000. The assets of the Company in the United States after paying these losses will be $1,800,000.

The American ship *Windward*, now at San Francisco, has been chartered by Meiggs Russell, Bloedow & Co., to come here and load for Hong Kong and return. This ship registers 782 tons. She will end within the next day or two, probably, and will get off for China as soon as practicable after her arrival at the port. Her load will be flour.

The Wheat market presents no new feature. Quotations remain unchanged at Liverpool and at San Francisco. In this market buyers are not disposed to pay a higher figure than that last quoted by us. Sellers on the contrary, manifest a disposition to make slight concessions, though not enough to meet the views of purchasers, and the consequence is that there are no transactions whatever, worthy of note. The receipts of the last two days, aggregating over 5,000 centals, were all on contracts made some time ago. The late rains have made it nearly impassable to haul, and the arrivals are, therefore, postponed mostly to the railroad, the steamer bringing very little. Four firms of Walla Walla during the month of October shipped 31,000 bushels of Wheat down the Columbia river. Shipments by other parties would raise the amount to about 50,000 bushels.

There is a rumor here that the tugboat *Astoria* has been withdrawn from service at the mouth of the river. We can say how much reliance can be placed upon the truth of the rumor, but we have been for some time in possession of information that the owners have complained that they were running it at a loss, and have intimated that they might withdraw her. However much there may be in the rumor, it suggests in what degree the shippers of this city are at the mercy of men who, if interested at all in the commerce of the country, have an interest adverse to Portland. Suppose the tug to be withdrawn, for anything going out, that of course adds 3 to 5 days to the delays of unfavorable wind and weather, and the increased chances of accident and disaster. It will not require much reflection to arrive at the inevitable result—loss of interest on shipments en route, increase of rates of insurance and inconvenience in every way. The business men of Portland could well afford to own and run for the benefit of their trade a tugboat of sufficient capacity to tow over the bar any vessel which could ascend the river. Ordinary prudence would suggest the employment of such means as are necessary and practicable to preserve and enlarge the business of the city. Will not every one concede that a tug owned by Portland and run by pilots interested in Portland's welfare, would be better for the business interests of the city than a tug owned and run by parties owning large interests in another town which they hope and expect will become a rival of our city.

A few days since a pack train of thirty animals loaded entirely with green fruit set out from Walla Walla for Montana.

The steamer [illegible] sailed from Washington Oct. 21st, will be of interest to the owners of steamers.

The Solicitor of the Treasury is of opinion that the new steamboat law repeals all previous acts on the subject. A certificate of inspection granted under the former statutes may be allowed to remain in force at least one year from the date on which it was issued, if the vessel to which it meets the requirements of the present law and of the Board of Supervising Inspectors. This allowance, however, is a matter of favor. The present law has made a number of important changes in the requirements; and he therefore suggests that the Supervising-Inspector-General cause, as rapidly as the convenience of the officers will permit, a new inspection to be made of all steamers subject to the provisions of this act, in order that the owners may be duly apprised of the additional requirements of the present law.

The Registrar of the Treasury states the tonnage of the country for the year ending June 30, as follows: In 1870 there were 25,993 vessels with 4,216,607 tons; in 1871 there were 26,170 vessels with 4,259,552 tons, an increase of 172 vessels and 23,085 tons. The steam tonnage has increased 5,309 tons. There has also been a considerable increase in the barge and canal boat tonnage.
